

JOHN ENGLER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

RUSSELL J. HARDING
DIRECTOR

January 2002

Dear Grant Applicant:

The Michigan Coastal Management Program (MCMP) of the Michigan Department of Environmental Quality (MDEQ) is pleased to announce the availability of grant funds for coastal projects to begin in October 2002.

The MCMP was developed under the federal Coastal Zone Management Act and approved in 1978. Since then, the MCMP has provided financial assistance to local communities to protect and manage their coastal areas, conduct studies related to sound coastal management, and to increase recreational opportunities along Michigan's Great Lakes coast.

If you are interested in participating in this grant program, please submit a hard copy of the application, postmarked no later than April 1, 2002. Enclosed is the project application form and additional information about the grant program. An example has been included as a guide to completing the application. The application can also be downloaded from our website at www.deq.state.mi.us/lwm under Great Lakes Shorelands Section, Coastal Programs.

All requested information must be submitted by the deadline date. Please note that applications that are incomplete may not be evaluated for funding consideration. Project proposal reviews will be conducted by staff during April, and may include a site visit during May or early June.

Requests for funding are limited to a maximum of \$50,000 of grant funds. All applicants must provide at least 50 percent of total project costs as match, which may be in the form of in-kind services, donations, or cash.

I encourage you to take advantage of the funding opportunities available through the MCMP, and to take an active role in enhancing and protecting our state's valuable coastal resources.

If you have any questions, please contact us at 517-373-1950.

Sincerely,

Catherine J. Cunningham, Chief
Michigan Coastal Management Program
Land and Water Management Division
517-335-3456
cunninggc@michigan.gov

Enclosure

MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY
LAND AND WATER MANAGEMENT DIVISION
MICHIGAN COASTAL MANAGEMENT PROGRAM

GRANT INFORMATION

1. **Why** are these funds being made available?

To encourage projects that reflect Michigan's coastal management objectives. These objectives include:

- * Creation and enhancement of coastal public access.
- * Protection of sensitive natural resources, such as wetlands and sand dunes.
- * Control of development in erosion or flood hazard areas to prevent loss of life and property.
- * Education and distribution of information about Michigan's coast and Great Lakes.
- * Preservation and restoration of historic coastal structures.
- * Redevelopment of urban waterfronts and ports.

2. **Who** is eligible to apply?

- * Coastal units of government including cities, counties, villages, and townships.
- * Area-wide agencies including county and regional planning agencies.
- * State agencies.
- * Universities.
- * School districts.
- * Tribal governments.
- * Nonprofit organizations (nonconstruction projects only) - Nonprofit organizations wishing to apply for construction funding must apply through an eligible entity (see the Grant Information sheet) and must provide assurance of public use through a public-use agreement, public easement, or lease.

3. **What** kinds of coastal projects are eligible for funding?

A. Studies and Design

- * Site design, planning, and engineering for recreational sites and waterfront redevelopment.
- * Feasibility studies.
- * Studies for protection of coastal resources.
- * Historic preservation/restoration plans.
- * Waterfront redevelopment studies.
- * Coastal educational materials.
- * Natural features studies.
- * Studies for economic development planning, including ports and harbors.
- * Community master planning and zoning with coastal significance.
- * Facility relocation studies.
- * Watershed management planning.

B. Construction

- * Resource protection or restoration.
- * Barrier-free retrofitting.
- * Low-cost construction projects such as: boardwalks, scenic overlooks, education and/or interpretive displays, and trails.
- * Restoration of historic coastal structures.
- * Other coastal-related construction or demolition.

All construction projects must be open to the general public, must either be located on public land or secured through long-term lease (20 years minimum), and handicapped accessible.

C. Geographic Information System (GIS)

All GIS proposals must have a direct connection to coastal planning and/or resource protection. The grant application should describe how the proposal would improve coastal management. GIS proposals that are applicable to the greatest number of communities and/or that foster partnerships between communities and other governmental units and agencies will be given a higher priority. GIS activities that are eligible for funding include:

- * Needs assessments and implementation planning.
- * Parcel mapping of coastal townships.
- * Mapping and digitizing of coastal resource data layers.
- * Coastal data analysis.
- * Purchase of software for coastal applications.

4. **What** kinds of coastal projects are NOT eligible for funding?

- * Restroom facilities.
- * General recreational facilities (e.g., playground equipment, ball fields, tennis courts, basketball courts).
- * Maintenance.
- * Shore protection.
- * Dredging.
- * Road construction.
- * Water and sewer line construction.
- * GIS-purchase of hardware.
- * GIS-maintenance activities (maintaining data).
- * GIS-parcel mapping outside of coastal areas.

5. **Where** must projects be located to be eligible for funding?

All construction projects must be within Michigan's coastal boundary that generally lies 1,000 feet inland from the ordinary high water mark of the Great Lakes. Included within the boundary are coastal cities, state parks, coastal lakes, coastal floodplains, Great Lakes connecting waters, coastal river mouths, bays, and designated sand dune areas. If you are uncertain whether a proposed project is located within the coastal boundary, **please call staff of the MCMP at 517-373-1950.**

All studies and design project sites must be located within the coastal boundary or directly relate to coastal management.

6. **When** will funds be available?

The grant period begins October 1 of each year, and ends December 30 of the following year. Approved projects must be started and completed within the grant period.

7. **How** to apply?

MICHIGAN COASTAL MANAGEMENT PROGRAM GRANT APPLICATION
COMPLETION INSTRUCTIONS (Example Attached)

FOR ALL PROJECTS

General Information:

- * Grant Application form (first page of application);
- * Resolution of Support (ONLY if grant applicant is a local unit of government);
- * Project Location Map (provided).

Detailed Project Description:

- * Describe purpose of the project;
- * Describe essential elements of the project;
- * If part of a larger project, describe relationship;
- * Describe relationship to existing facilities; and
- * Indicate approvals that will be necessary (permits, etc.) and how the project conforms to the master plan, zoning, etc.

Detailed Budget:

- * Provide a list of project components, and a cost estimate for each component, round to the nearest hundred dollars.
Distinguish between grant funds and local funds to be spent on each component (see EXAMPLE);
- * Indicate how the grant will be matched (cash, in-kind services).

Schedule for Completion:

- * Provide a schedule for completion of the project components based on a grant year starting October 1 and ending December 30 of the following year.

Funding Source:

- * If the proposed project is a planning or design project, include a statement as to the source of funds to construct the project once the plans and specifications are completed.

FOR CONSTRUCTION PROJECTS ONLY

In addition to the above information, provide the following:

- * Construction Checklist;
- * 8½" x 11" drawing of the project site (site plan, relationship to property lines, and other facilities on the site);
Distinguish between existing and proposed components of the site;
- * A master plan for the site, if one exists, and sketches or drawings necessary to fully explain the project;
- * Include any additional information that you feel will help describe the project, or the need for the project;
- * Include a copy of the contract if the property where the proposed project is located is leased.

Complete a **PUBLIC OWNERSHIP AFFIDAVIT OR an ATTORNEY TITLE OPINION (Examples Provided):**

- * Public Ownership Affidavit: **On a separate piece of paper**, explain your authority to certify that the property on which the proposed project is located is publicly-owned and there are no encumbrances, easements, liens, etc. on the property that would interfere with it being used for the proposed project;
- * Attorney Title Opinion (no more than two years old): Have an attorney complete and sign the enclosed form; please be sure the issue of easements and encumbrances is addressed.

CONSTRUCTION CHECKLIST

Authorized by the Federal Coastal Zone Management Act, PL 92-583 of 1972, as amended

1. Public Benefit:

- a. This project is on public land or on publicly controlled easement and is for public benefit. The project does not improve private property and is not for private of commercial gain. ☐ Yes ☐ No
- If the answer to 1a. is NO, the project is not eligible for construction funding.
- b. The facility will be open to the general public. ☐ Yes ☐ No ☐ N/A
- c. If the answer to 1b. is NO, the project is not eligible for construction funding, unless access to the facility will be limited for one or more of the following reasons:
- ☐ N/A ☐ Public Safety ☐ Resource Protection
- ☐ School Outings ☐ Scientific Research ☐ Other
- d. A deed, lease, or easement will be needed to conduct the activity. ☐ Yes ☐ No
- e. If the answer to 1d. is YES, what is the life of the document (provide duration, i.e., years, or specify if in perpetuity).

- f. The document in 1d. contains a reversionary clause. ☐ Yes ☐ No
- If YES, attach the reversionary clause to this checklist.
- g. A subcontract with a nonprofit organization is needed to complete part or this entire project.
☐ Yes ☐ No
- If YES, the name of the nonprofit is _____

2. National Flood Insurance Program:

- a. The project is located in a designated floodway or "v" zone on a National Flood Insurance Program Floodway Map.
☐ Yes ☐ No (If the answer is No, go to item 3. National Environmental Policy Act)
- b. A coastal community proposing a construction project that includes the construction in special flood hazard areas shown on an FIA map is participating in the Flood Insurance Program. ☐ Yes ☐ No
- If the answer is NO, the project is not eligible for construction funding.

MAIL COMPLETED APPLICATION WITH NECESSARY ATTACHMENTS TO:

LANSING, MI 48933

3. National Environmental Policy Act:

- a. The proposed project may significantly affect the human environment. ____Yes ____No
- b. The proposed project involves unresolved conflicts concerning alternative uses of available resources. ____Yes ____No
- c. This action would have significant adverse effects on public health and safety. ____Yes ____No
- d. This action will have highly controversial environmental effects. ____Yes ____No
- e. This action will have highly uncertain environmental effects or involve unique or unknown environmental impacts. ____Yes ____No
- f. The project will have significant adverse impacts on other natural resources, e.g., beaches and dunes, wetlands, estuarine areas, wildlife habitat, wild or scenic rivers, reefs, or other coastal resources. ____Yes ____No
- g. The project will have insignificant effects when performed separately, but will have significant cumulative effects. ____Yes ____No

If the answer to any one subpart of 3 is YES, then an Environmental Assessment (EA) may be required. If YES, attach a description of the resource(s) affected and the nature and scope of the effects.

4. Handicapped Accessibility:

- a. The proposed project is handicapped accessible. ____Yes ____No ____N/A

If the answer to 4 is NO, attach to this checklist an explanation as to why the project is not handicapped accessible.

5. User Fees:

- a. The public will be charged a user fee for the proposed project. ____Yes ____No ____N/A

If the answer to 5 is YES, please attach a description of the user fee that includes how much, differential fees (if any), the need for the fees, and proposed use of the revenue.

6. Environmental Justice:

- a. The project will not have disproportionately high and adverse human health or environmental effects on minority or low-income populations. ____Yes ____No

7. State, Local, and Tribal Laws:

- a. The project is consistent with state, local and tribal laws to protect the environment. ____Yes ____No

If the answer to either 6 or 7 is NO the project will not be approved.

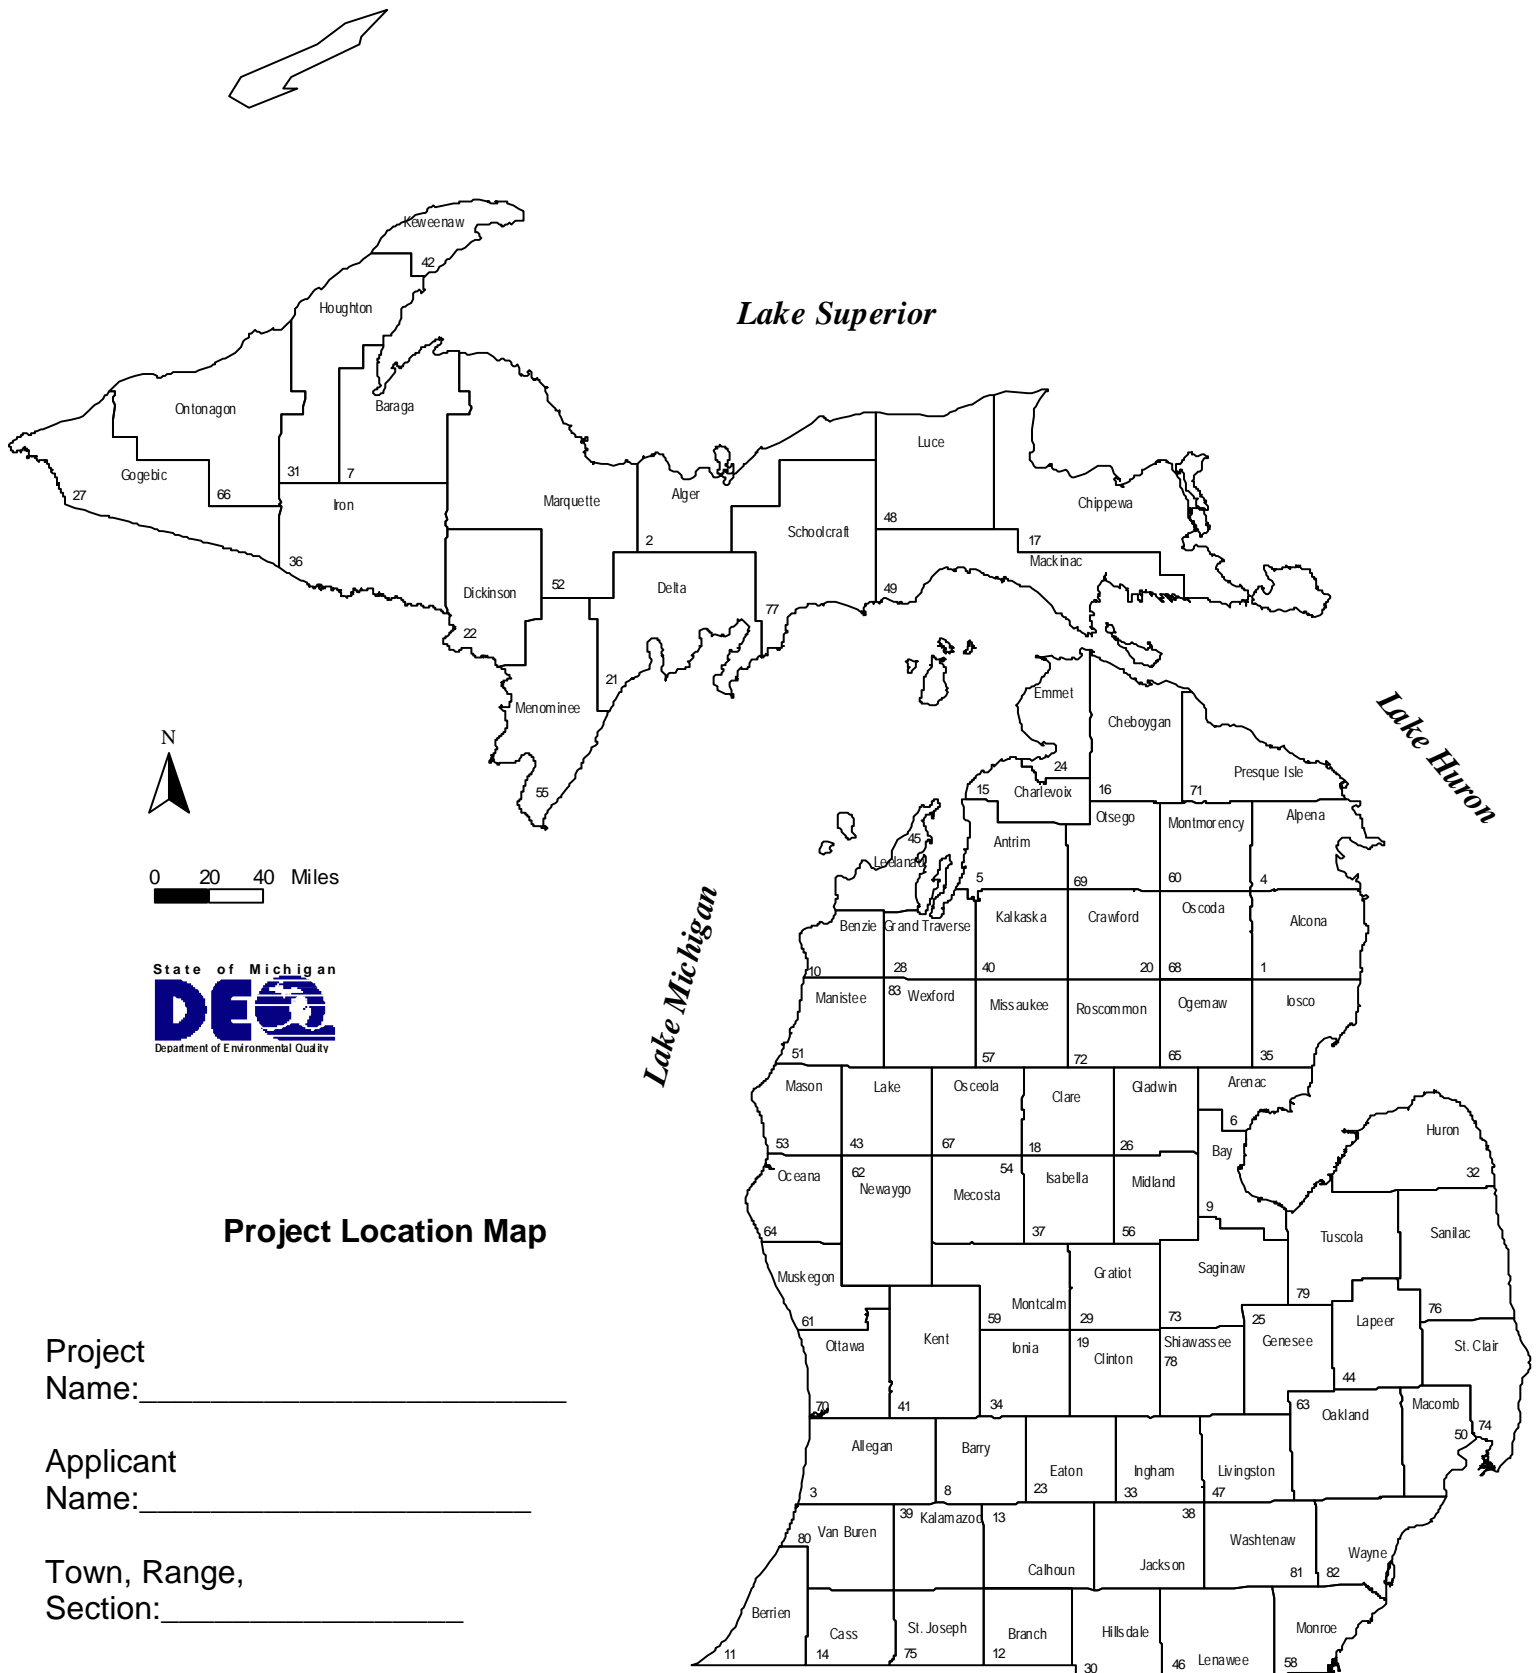

If you have any questions or require assistance in completing this checklist, please feel free to contact Michigan Coastal Management Program staff at 517-373-1950.

LAKEVIEW PARK IMPROVEMENTS - VILLAGE OF LAKEVIEW

Detailed Project Description

Purpose of the project

Lakeview Park is located within the village of Lakeview at the mouth of the Red River and includes frontage on Lake Superior and the river. The village proposes to make improvements to the developed portion of the park and complete a site design that will encourage passive recreation and wildlife observation in the undeveloped part of the park (see enclosed site plan). This project will include construction of a wood chip pathway, providing access to a barrier-free observation deck along the river and the beach area near the rivermouth.

The site design for the undeveloped portion of the park will include an inventory of the park's natural features to determine the best route for a compacted chips and fines pathway and a barrier-free observation deck along the river. Construction drawings and bid specifications for the observation deck will be included as part of the site design. The pathway and observation deck will be constructed upon completion of the site design and after receipt of all permits.

In the developed portion of the park, indiscriminate pedestrian access to the Lake Superior beach has damaged the vegetation, resulting in erosion of the bluff. The village proposes to construct approximately 250 linear feet of rustic wood fencing along the top of the bluff parallel to the lake, and revegetate the bluff with dune grass. Benches would be installed at the top of the bluff, overlooking the lake. Native shrubs and ground cover would be planted behind the benches. Construction and installation of the benches, planting of the dunegrass, and installation of shrubs and ground cover would be done by Public Works crews as "in-kind" match.

The village plans to provide controlled access to the river by constructing a wood chip path and foot bridge connecting to a barrier-free observation deck at the river's edge. Construction of the observation deck would be contracted through a competitive bid process.

Essential elements of the project

1. Preparation of the site design for sixteen acres of park land, construction drawings, and bid specifications for an observation deck and foot bridge;
2. Construction and installation of 1,000 linear feet of rustic wood fencing and eight wooden benches;
3. Landscaping and dunegrass planting along the lake bluff;
4. Construction of a 2,000 linear foot chips and fines compacted pathway;
5. Construction of a barrier-free observation deck and foot bridge.

Relationship to a larger project

This is Phase II development of the park property as indicated in the village's waterfront redevelopment plan. Phase I was completed in 1995 and included construction of the existing park facilities.

Relationship to existing facilities

The park is located near a marina and nature center complex operated by the state east of the Red River from this park site. This project will increase opportunities for enjoyment of the waterfront, and encourage visitors to the area to use the park as well as the nearby marina and nature center. Upon completion of plans for the observation deck and footbridge, the village will submit the plans to the Michigan Coastal Management Program (MCMP) staff for review. Upon approval, the village will apply for all necessary construction permits.

Detailed Project Budget

	<u>CZM</u>	<u>MATCH</u>	<u>TOTAL</u>
Preparation of site design, construction drawings, bid specifications for deck, foot bridge, and wood chip path	\$1,000	\$5,500	\$6,500
Materials for 2,000 linear feet of wood fencing and benches	6,000	0	6,000
Purchase of native shrubs and dune grass	1,000	0	1,000
Construction/installation of rustic fencing and benches	0	2,000	2,000
Planting of native shrubs and dune grass	0	2,500	2,500
Construction of 5 feet of wide chips and fines pathway	2,000	0	2,000
Construction of observation deck and foot bridge	<u>2,500</u>	<u>2,500</u>	<u>5,000</u>
Total Estimated Cost	\$12,500	\$12,500	\$25,000

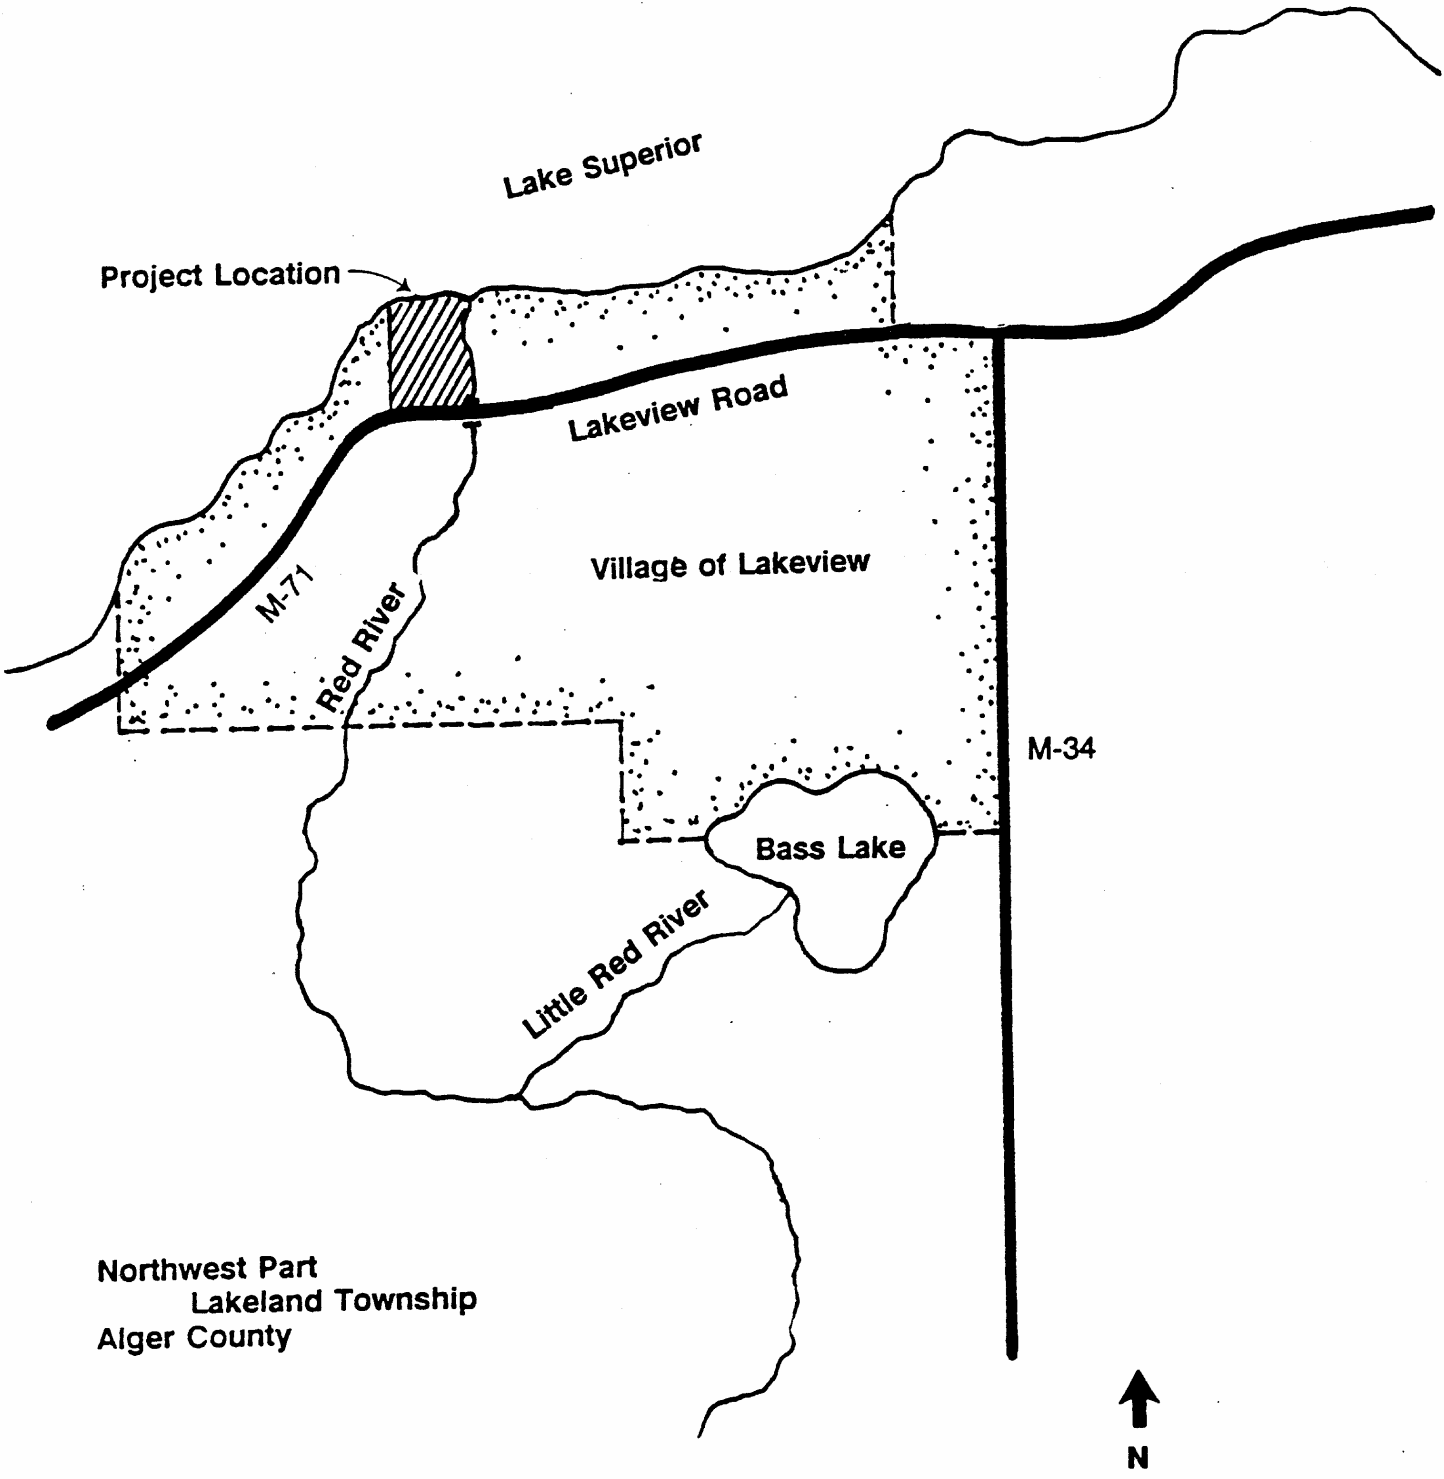

Funding source

Local match for the project includes cash from the village's Park Development Fund, and in-kind labor.

Schedule for completion

Prepare site design	October - December 1998
Submit design to staff of the MCMP for review and approval	December 1998
Prepare bid documents; apply for a permit by the MDEQ	January 1999
Review construction bids	February 1999
Award contract	March 1999
Install pathway	April 1999
Construct/install fencing and benches, plant vegetation	May 1999
Construct observation deck	June 1999
Project complete	September 1999
Submit final report to the staff of the MCMP	November 15, 1999
